

Things to consider before you decide to transfer

The points above should not be considered alone, but related to your own situation and circumstances. If you are unsure if transferring is right for you, please contact an independent financial adviser.

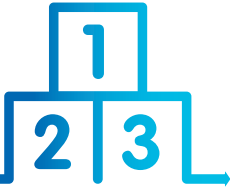

Some facts about The People's Pension

The benefits of transferring your pension

There are a number of reasons why you may want to consider moving your existing pensions to The People's Pension Scheme:

Competitive charges – with The People's Pension you have one single charge. There is an annual management charge of 0.5%. To put it another way, that's 50 pence a year for every £100 of the value of your account.

Simple – The People's Pension has several investment funds to choose from, and three risk-based investment profiles that move to lower risk investments as you get older. If you don't want to make a choice about your investments, they will automatically be placed into the mid-risk, known as the 'balanced' investment profile. All the investment funds and profiles are proactively kept under review by the Trustee on behalf of the members.

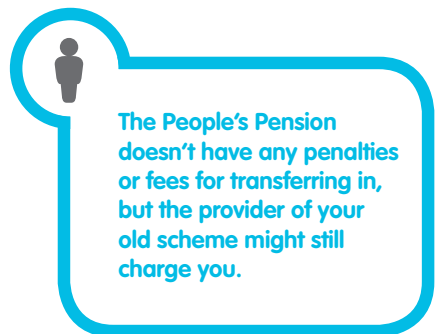

One pension pot – having only one pension pot means that you will receive only one set of annual paperwork, and one online log-in, making it easier for you to keep track of your pension pot. With The People's Pension you can keep that pot for life and it can follow you from job to job, even if you become self-employed.

Governance – The People's Pension is run by an independent corporate Trustee that has responsibility for looking after all aspects of the scheme. The Trustee will ensure it is run in the best interests of its members, and in accordance with the rules and the law, as well as making sure that the investment options are appropriate and the administration is first class.

Innovation – The People's Pension doesn't stand still. The Trustee will ensure that it continues to deliver what its members need and want from their pension scheme.
