## Good news – the amount we're paying into your workplace pension has gone up again

The contributions set by the government for auto-enrolment have increased to a minimum of 8% of your qualifying earnings (with at least 3% from us).

By law, the amount we pay into your pension pot has gone up – you'll notice a change in contribution amounts on your payslip after 6 April 2019. The good news for you is that there'll be more money in your pension pot as a result.

So, what happens next?

You don't need to do anything. We have automatically adjusted the amounts we – and you – pay in to your pension pot. Your contributions come out of your pay, as normal.

Please contact us at [\(insert your contact details\)](#) if you've any questions about this.

For information on tax, savings calculators, and much more, visit The People's Pension website and discover how the contribution increases will work.
